## **Rechargeable Battery Operated, Portable Bag Closer with combined Top and Bottom Feed**

For operation in locations where no electricity is available. For joining geotextile support fabrics at construction sites, for closing bags made of paper, jute, cotton, linen, plastic, e.g. in agricultural areas, areas endangered by floods etc.

Powered by a 24 volt, 120 watt DC-motor (rated input), using lithium ion, rechargeable batteries which are integrated in a shoulder bag. Stable structure. Production capability with fully charged batteries approx. 300 - 500 bags, depending upon type of material, number of plies, stitch length and width of bags. Capacity of the rechargeable battery 3.0Ah.

Battery charger included, primary 230 V, 50 Hz, secondary 25.2 V.

Charging time max. 2 hours.

### **Recommended extras:**

Rechargeable battery: Part No. 90196A
